General Introduction

DMX-100 is a full-colored LED control system which focuses on indoor and outdoor decorative lighting. This control system can fulfill 256 gray levels for each R,G,B color, totalling 16.77 million real full colors. With the wireless remote controller, you can achieve the mode change and speed adjustment very conveniently. There are 16 modes and 8 levels of speed you can choose, and with the pause function you can keep the fixed color optionally.
